ZEUS | FİYAT LİSTESİ

ZEUS Tırtıl Aletleri

Standart profillerin yanı sıra, zeus tırtıl alma aletleri konik, dışbükey, içbükey ve özel profillerin üretiminde de kullanılabilir. İş parçası üzerinde profil üretimi için en önemli uygulamalar, yanındaki uygulama örneğinde gösterilmektedir.

Küçük parçalar için ve parçanın köşesine kadar yanaşabilmek için

İş Parçasındaki Tırtıl Profilleri (DIN 82):
Dalarak ve ilerleyerek tırtıl çekme

Tırtıl seçimi:

2x AA	2x BR	2x BL	1x BL / 1x BR
-------	-------	-------	------------------

Ürün Özellikleri:

- Tırtıl karbür vida ile sabitlenmiştir
- Senkron yapısı ile iş parçasının çapına uyum sağlar
- Açık ayar vidası vardır
- Modüler sap tasarımı: 10 x 10 mm sap ölçüsü adapte edilebilir
- LD = İsviçre tipi tornalar için

Sağlam ve güçlü yapı

İş parçasındaki profil (DIN82):
İlerleyerek tırtıl çekme

RGE30° RGE45°

Tırtıl seçimi:

2x AA 1x BL15°/ 1x BR15°

Ürün Özellikleri:

- Modüler tasarım. Sağ ve sol yönlü olarak kullanılır
- Kolay değişebilir
- Conversion to alternative full shank dimensions is possible
- Modüler sap tasarımı: Sap boyu 10 x 10 mm optionally adaptable
- İnce ayar, merkez yükseklik ayarı
- İnce aç ayarı
- Kaplamalı bilyalı yatak sürtünmeyi engeller. Dikey yükseklik ayarıyla 20mm sap 25mm de kullanılabilir

PRODUCT FEATURES

- Modüler sap tasarımı
- top edge of shank = centre height set
- screws in shank for correcting alignment
- hardened pin
- exact positioning of the marking on the circumference of the workpiece
- marking up to a shoulder
- center height corresponds to the first marking point
- marking position individually adjustable
- sets in high quality packaging

(for tool set 421)

Standard design	
flank angle	90°
Boyutlar (çap ø x en x delik, mm)	25 x 6 x 6
font	according to DIN 1451

Product features

- Fixed tool head
- New entry-level model for simple burnishing applications, e.g. for burnishing shafts with cylindrical surfaces
- Tool universally applicable
- Compact design - developed for Swiss type lathes
- Center height at middle of the shank
- Long tool life of the diamond burnishing tip due to eightfold change of tip position

Recommendations

- Burnishing speed up to 200 m/min
- Feed rate up to 0.2 mm/U
- Material allowance of 0.01 mm (~Rz 10) and 0.02 mm (~Rz 20)
- For an optimum result it is recommended to use a cooling lubricant

The zeus burnishing tool integrates the burnishing of a component into the machining process on a machine.

EXTREMELY COST EFFICIENT

It can perform subsequent machining steps such as grinding, polishing, superfinishing, honing or hardening.

Product features

- Tool head is variably adjustable
- Tool universally applicable
- Swivel range $\pm 90^\circ$
- Thanks to the adjustability of the tool head, it is possible to burnish end face, conical, convex and concave geometries
- Application up to a shoulder
- Long tool life of the diamond burnishing tip due to eightfold change of tip position

Recommendations

- Burnishing speed up to 200 m/min
- Feed rate up to 0.2 mm/U
- Material allowance 0.01 mm ($\sim R_z 10$) and 0.02 mm ($\sim R_z 20$)
- For an optimum result it is recommended to use a cooling lubricant

RRA

RRE

zeus burnishing rolls can be used in standard zeus form knurling tools. On request, we can develop and produce a custom holding system.

Use in this tool system is suitable for machining cylindrical work-pieces, bores, end faces, conical workpieces and for convex and concave outer contours.

Applications:

zeus burnishing rolls are used primarily for roller-burnishing and supporting round material during machining on lathes.

Result:

Improved surface quality
Increased dimensional stability
Increased hardness of surfaces

Advantages:

- Burnished workpieces exhibit low friction and increased resistance to corrosion after machining
- Reworking, such as grinding, honing and lapping can be replaced by simple roller-burnishing machining
- When used as support rolls, they reduce wear on the bearings and clamping devices and minimise the pressure on the workpiece

High process reliability and stability

- Holder and broach lie fl at against each other.
- All Hommel+Keller broaches are provided with Hommel+Keller's own INOX Plus coating.
